

ENVIRONMENT ENDOWMENT FUND

Matching donations to support the environment

The vitality of a community depends on a healthy natural environment. Hamilton Community Foundation is committed to environmental well-being and sustainability. The Environment Endowment Fund serves as a vehicle to maximize donor contributions to this sector.

Why choose the environment endowment fund?

- You want to support a range of environmental initiatives including: conserving the natural environment, supporting a green economy, programs related to air, water and food supply, education and citizen engagement, and building the local environmental sector capacity
- You want to maximize the impact of your donation with matched contributions from HCF

How it works

- HCF matches donations up to \$1 million, with the Foundation's contribution remaining endowed
- Those making donations of \$5,000 or more may choose to establish a named fund
- An advisory committee provides HCF with advice on trends, community priorities within the Environment Endowment Fund and annual grant recommendations
